My records show that I contributed to the WWRA less than a year ago, April 3rd to be exact. Since your membership is an annual situation, I didn't feel pressured to remit before April because I don't owe you a thing.

With the economy the way it is and with the prices going up on everything I don't appreciate being pestered from you about money that I do not owe. I will continue to support the WWRA as best as I can, but at my own pace. Not yours.

The only radio I have is on my boat. In the past year I probably have only used it a half dozen times. Since I plan a boat trip soon, please find enclosed a 20 dollar check.
